

Glo-Fi

Smino

Crowd your house with clouds all day
Drank up all your lemonade
Ain' know we had Tanqueray
If something, make a birthday break bread with muffins
Sucker niggas sucking, they want me to get sucked in, nah
Hold me down, I hold you up
Come here, let me froze you up, up
We could light them stones to cheer you up
I'm playin', too much
Pheromone to Fahrenheit, the Glo-Fi hard to hide it

It's a starlight (Oh), starlight (Oh), starlight (Oh), starlight (Oh)
You can't dim me down (Oh), you can't burn me out (Oh)
Starlight (Oh), starlight (Oh), starlight (Oh), starlight (Oh)
You can't dim me down (Oh), you can't burn me out (Oh)

And I'm just a rock-and-rollin' rock-and-rollin' stone forever
From October, astral child
Libra leader, at least I'ma leave a lover, roll another L of love
I was just in town, she caught the Smino fever (Oh)
I'm in the reefs and we chiefin' reefer (Oh)
Oh, blunt thick as cleavage, yeah (Oh)
Good time, flow me out, J-J (Woo, dynamite)
Felt my mother, I'm okay (I'm alright)
They fucked up my Uber Eats today (forgot the fries)
Fuck that, Postmates, and now I'm okay (Okay)

Nigga wanna style, let me show you some
Stay the night today, stay the night today
Tell me how to do it right, bein' on the spotlight
Are you gonna meet me halfway?

Starlight, starlight (Oh), starlight (Oh), starlight (Oh)
You can't dim me down (Oh), you can't burn me out (Oh)
Starlight (Oh), starlight (Oh), starlight (Oh), starlight (Oh)
You can't dim me down (Oh), you can't burn me out (Oh)
