Tequila

Mockingbird, mockingbird, I copped her a new Beamer  
Oh yes she fly away, cicada, but another quaalude  
She be back  
She be back  
Yeah you know that she'll...

(Uh huh, uh huh, uh huh)

Paid a lil' fair on the East side high  
Like, "Free Mr. Clark"  
Lady upstairs 'bout to be so hot  
Smokin' like "fix the car"  
New plugs, new wires  
Baby, I'm plugged and wired  
Been at it since 6 o'clock  
Been drinkin' my water  
Worried bout mine  
Try it, it'll clear up the bumps  
I'm up like an attic  
I'm fucked, I'm an addict  
I'm stuck, it's a habit  
Compulsive and damaging  
Booches, they all wanna hang like a banister  
Bang her and banish her, Crash Bandicoot  
Booked like a manual, we did it manual  
Prayed to Emmanuel, dipped in detergent  
Serpents lurkin', look how they slither  
Fuck 'em right now, we on this liquor

Tequila

Mockingbird, you fly, you worth a brand new Beamer  
Fly away like a cicada, another quaalude  
She'll be back, yeah, she'll be back

Uh, I got my feet up, my feet up  
Thick bitch, met her at V-Live, V-Live  
I love her because she live, she live  
She don't wear no fuckin' FILA, Balenciaga  
My deal, sweeter than key lime, gimme the whole pie  
With my cousin like Skeeter, breain' bread from "Anita"  
Ooh, I'm 'bout to go and spark some  
Up in the car, if you wanna go  
Ooh, she got her hands on my torso  
She tryna start somethin', ya know  
You don't really wanna start none  
You don't wanna start none, you gone  
Eventually bring out that demon  
She screamin' for the Lord, talkin' in tongues

Slow down, won't you?

She the type, pronounce her pronouns

Ask you, "What's your birthday, what's your rising?" Don't know

But the convo's mesmerizing  
I beat it like battery  
You know them energy girls be the nasty freaks  
Pour up a glass of...

Tequila  
Mockingbird, you fly, you worth a brand new Beamer  
Fly away like a cicada, another quaalude  
She'll be back, yeah, she'll be back

It's like, I'm surrounded by dark in the room. And then I hit the blunt, so  
I gotta lay down, but... I wish I was like... on a beach looking at the star
