

# Aimee Move On

Smith & Burrows

Aimee move on  
Make up your mind, you're making me hungry  
This ain't escape, this ain't the cure  
Your legend's are gone, the money's run out  
Before we can sleep, they knocked down our door  
I wouldn't lie on a bed of our roses  
I wouldn't call this hovel our home  
I'm starting to itch, the allergies hit  
Let's go outside, now turn off your phone

I was the worst, I was the best  
No, I was the best of the worst  
And the rest don't make the list  
The chances we missed  
Wouldn't it be wonderful if I wasn't such a fool  
Step outside, howl at the moon

Aimee move on  
Aimee move on, no-one's indestructible  
We don't belong in these circles of friends  
We drown in our drinks, the small talk just stings  
It never ends, never ends, never ends  
Back to our place, stare at the TV  
They'll turn it on, we won't get found out  
Whisper then shout, it all comes too soon  
Let's leave this room to howl at the moon

I was the worst, I was the best  
No, I was the best of the worst  
And the rest don't make the list  
The chances we missed  
Wouldn't it be wonderful if I wasn't such a fool  
Step outside, howl at the moon  
Don't you know I'm such a fool  
Step outside, howl at the moon  
Aimee move on
