

## As the Snowflakes Fall

Smith & Burrows

As the snowflakes fall, catch the moonlight  
Still not sleeping, my heavy heart beating  
Beats for a loneless love

Down at the waterhole, good people swilling  
From the bottles they drink, to good times got willing  
Just like some fairytale  
Feels like some otherworld

Our resiples that are Children singing  
This is Christmas, show time forgiving  
You took it all away  
You took your love away

All the memories I had of this clouded Christmas  
Shadow before me, as I hold them between my fingers  
I need to feel something, in my heart  
Just like some fairy tale  
Feels like some other world

Our resiples that are Children singing  
This is christamass, show time forgiving  
You took it all away  
You took your love away

All the memories I had of this clouded Christmas  
Shadow before me, as I hold them between my fingers  
I need to feel something, in my heart

Down the broadway, salvation army  
Warming chords from a dream, right where you'll find me  
Just like another world, you took your love away
