

Funny Looking Angels

Smith & Burrows

I don't wanna reason, I don't need a meaning
Don't say it doesn't matter, say it doesn't matter
I don't need an answer, to make me any better
Don't say it doesn't matter, say it doesn't matter

How you gonna do it, how you gonna do it now
I've got no calling; still I get up every morning
How you gonna do it, how you gonna do it now
Look in my pocket, you can have it if I've got it

I don't need protecting cause I know I'm gonna get it
Don't say it doesn't matter, say it doesn't matter
I don't want you messing, I know the hole that I'm in
Don't say it doesn't matter, say it doesn't matter

How you gonna do it, how you gonna do it now
I've got no calling, still I get up every morning
How you gonna do it, how you gonna do it now
Look in my pocket, you can have it if I've got it

Funny looking angels, funny looking angels
Funny looking angels, ain't got no money
We always sick and tired
We always think it's funny

I don't wanna reason and I don't need a meaning
Don't say it doesn't matter, say it doesn't matter
I don't need an answer, to make me any better
Don't say that doesn't matter, say it doesn't matter

How you gonna do it, how you gonna do it now
I've got no calling, still I get up every morning
How you gonna do it, how you gonna do it now
It's in my pocket; you can have it if I've got it

Funny looking angels, funny looking angels
Funny looking angels, ain't got no money
We always sick and tired
Always think it's funny

Funny looking angels, funny looking angels
Funny looking angels, ain't got no money
We always sick and tired
Always think it's funny

We're funny, we're funny, we're funny, we're funny
We're funny, we're funny, we're funny, we're funny
We're funny, we're funny, we're funny, we're funny
We're funny, we're funny, we're funny, we're funny
