

I Want You Back In My Life

Smith & Burrows

It was April, it was April and there was snow
I went for a long, long walk
Thoughts running around my head they go
How I don't feel no love anymore
But then I can't feel my toes so what the hell do I know?
Why does time move so slow?

Get me out of this hole
Too much of me with myself and I'm in trouble
All the clouds are grey and the wind has the bitter bite
All I know is I want you back in my life
All I know is I want you back in my life
All I know is I want you back in my life

I need to love somebody, somebody, na-na-na-na-na
I need to love somebody, somebody, anybody

I hate Monday's, 'cause that's the day when it all falls through
I need a heatwave, a bit of vitamin D then up I go to

Get me out of this hole
Get some debt me with me then you in trouble
All the games we play couldn't keep cold from breaking in
All I know is I want you back in my life
All I know is I want you back in my life
All I know is I want you back in my life

I need to love somebody, somebody, na-na-na-na-na
I need to love somebody, somebody, anybody, na-na-na-na-na
I need to love somebody, anybody

All I know is I want you back in my life
All I know is I want you back in my life
All I know is I want you back in my life
All I know is I want you back in my life

I need to love somebody, somebody, na-na-na-na-na
I need to love somebody, somebody, anybody, na-na-na-na-na
I need to love somebody, anybody
