

Spaghetti

Smith & Burrows

I can't stand the wasting time
It goes dither dither dither across my mind
Slump my bones into my throne
I'm gonna wait for her to kiss me back to life
Save my prayers for someone who cares
Another wasted night, thank God for being alive
Well, fee-fi-fo the fun's just begun
I got a hunger here I just can't let it die
I won't let the good times roll
Another empty grin, another empty soul

I'm gonna mess you up, just like spaghetti
I'm gonna fill my cup up to the limit
Gonna suck you down, just like spaghetti
Can you see my crown, don't you forget it
I've been working you, well I'll take the minutes
I'll be turning this town upside down for years, for years, oh

I don't watch the evening news, I like misery with coffee and nights
with the blues
Well it's love love love, it makes me regret it
I got you in my sights, now help me forget it
I won't let the good times roll
Another empty grin, another empty soul

I'm gonna mess you up, just like spaghetti
I'm gonna fill my cup up to the limit
Gonna suck you down, just like spaghetti
Can you see my crown, don't you forget it
I've been working you, well I'll take the minutes
I'll be turning this town upside down for years, for years, oh

I can't stand the wasting time
It goes dither dither dither across my little mind
Well, fee-fi-fo the fun's just begun
I got a hunger here that just won't die

I'm gonna mess you up, just like spaghetti
I'm gonna fill my cup up to the limit
Gonna suck you down, just like spaghetti
Can you see my crown, don't you forget it
I've been working you, well I'll take the minutes
I'll be turning this town upside down for years, for years
I'm gonna mess you up, just like spaghetti
I'm gonna fill my cup up to the limit
Gonna suck you down, just like spaghetti
Can you see my crown, don't you forget it
I've been working you, well I'll take the minutes
I'll be turning this town upside down for years, for years, oh
