

## Boiling Point

Smith & Thell

Baby, they have warned us 'bout us  
'Bout us, 'bout us, 'bout us, boy  
Maybe we can't hear the sirens  
Sirens, sirens, sirens calling

Cause love it equals danger  
Love it equals hurt  
But you could be my saviour  
So I risk to burn

Stay with me in this big ocean  
I need you forever and ever and on  
You're my boiling point  
Simmer through my veins this poison  
I love you too much to function, boy  
You're my boiling point

Baby, they are talking 'bout us  
'Bout us, 'bout us, 'bout us, boy  
Maybe you're my poisoned ivy  
But Bonnie and Clyde felt no remorse

Cause love it equals danger  
Love it equals hurt  
But you could be my saviour  
So I risk to burn

Stay with me in this big ocean  
I need you forever and ever and on  
You're my boiling point  
Simmer through my veins this poison  
I love you too much to function, boy  
You're my boiling point
