

Forgive Me Friend

Smith & Thell

I, I've been keeping secrets from you dear
There's things in me I'm scared that you might fear
It crackles in the ground
And you, you've been coming closer to the edge
Wondering what goes on in my head
And so I shut you out

And I guess that we don't mean to be falling apart
But you will always have a special place in my heart
I never wanted this to end, can you forgive me friend?

'Cause I fell in the hole, in the hole, in the hole
My heart was turning cold, turning cold, turning cold
I never wanted this to end, can you forgive me friend?

And I, I promised you that we would never change
That you and me would always stay the same
How I let you down

And I guess that we don't mean to be falling apart
But you will always have a special place in my heart
I never wanted this to end, can you forgive me friend?

'Cause I fell in the hole, in the hole, in the hole
My heart was turning cold, turning cold, turning cold
I never wanted this to end, can you forgive me friend? (Hey)

So can, can you forgive me friend?
Can you forgive me friend for breaking us apart?
'Cause in the end, I didn't want this to end
Can you forgive me friend? Forgive my ugly heart

And I guess that we don't mean to be falling apart
But you will always have a special place in my heart
I never wanted this to end, can you forgive me friend?

'Cause I fell in the hole, in the hole, in the hole
My heart was turning cold, turning cold, turning cold
I never wanted this to end, can you forgive me friend? (Hey)
