

Hippie Van

Smith & Thell

I used to be a different girl
Thought the money meant the world
I used to play a different game
Without heart and without shame
I'm tired of my pretty hair
Of shallow friends that doesn't care
"They don't really care"
Don't need the glamour or the fame
Gossip drives me insane

So I'm gonna run away
Until night

I wanna dance around the fire, oh oh oh
[?] in the rain
Singing again
Paint my face with colour, oh oh oh
And kiss the man
The man with the hippie van
Oh oh oh oh oh...
The man with the hippie van
Oh oh oh oh oh...

I'm gonna run into a bar
Just hit the stage with my guitar
(My guitar)
I'm gonna sing and take a chance
Take a shot and than we'll dance
I wanna find a special man
Yeah the man with the hippie van
I wanna sneak into a barn
And fall asleep in his arms

So I'm gonna run away
Until night

I wanna dance around the fire, oh oh oh
[?] in the rain
Singing again
Paint my face with colour, oh oh oh
And kiss the man
The man with the hippie van
Oh oh oh oh oh...
The man with the hippie van
Oh oh oh oh oh...

I want this night to last forever
Let us sing in this together
I want this night to last forever
I want peace, love and understanding

I wanna dance around the fire, oh oh oh
[?] in the rain
Singing again
Paint my face with colour, oh oh oh
And kiss the man, man, man...
The man with the hippie van

Oh oh oh oh oh...
The man with the hippie van
Oh oh oh oh oh...

Oh oh oh oh oh...
The man with the hippie van
