

Kill It With Love

Smith & Thell

Kill it with love
Kill it with love

A generation living for the loving
Kill it with love
A generation loving for the living
Kill it with love
A revolution we are getting stronger
A love solution live the love that you wanna see
Sprawl the world and...
Kill it with love
Kill it with love
Kill it with love
Kill it with love
Kill it with love
Kill it with love, with love, with love

This time I won't let no one hurt me
And this time
Kill it with love, kill it with love
This time I won't let no one break me
And this time
Kill it with love, kill it with love, kill it with love

A generation living for the people
Kill it with love
A generation loving for the hopeful
Kill it with love
A revolution we are getting stronger
A love solution live the love that you wanna see
Sprawl the world and
Kill it with love
Kill it with love

This time I won't let no one hurt me
And this time
Kill it with love, kill it with love
This time I won't let no one break me
And this time
Kill it with love, kill it with love, kill it with love

Don't you brother if they're try to break you
Kill it with love
Kill it with love, kill it with love, kill it with love
Don't you brother if they're try to break you
Kill it with love, kill it with love, kill it with love, kill it with
love
