

In a couple of weeks  
Your hair will fall to the ground  
All that silver and blonde  
You saved for so long

And in a couple of months  
We're gonna walk through the doors  
Inside the hospital walls  
Your verdict will fall

But for now, we just keep praying  
To a God we try to believe in  
And there's a lot of people saying  
That it's all 'bout positive thinking  
So, I make you drink your vitamins  
And we try to keep you laughing  
Meditation helps  
And have you ever felt  
Two hands that practice healing?  
Ah ah...  
Then we cried ah ah ah...  
Wanna ease your pain  
But what can I say?  
Wanna play a game?

And we played Yatzy  
All night long  
And just like with your life  
We counted the odds  
And the kids where laughing  
When we let them win  
Please have mercy  
Cause they don't know a thing

And we played Yatzy  
All night long  
And just like with your life  
We counted the odds  
But one thing is certain  
It ain't your time to go  
We just need a full house  
And five sixes in a row

And I asked you to tell  
Is there something you miss?  
Tell me what do you wish?  
Do you have a bucket list?

You said  
You already swam with dolphins  
And there's not anywhere you wanna climb  
It ain't like missing out on wild things  
Is what keeps you up at night

You said all that you want  
Are the simplest things  
Just for your body to bare

And to stay with your kids

But for now, we just keep praying  
To a God we try to believe in  
And there's a lot of people saying  
That it's all 'bout positive thinking  
So I make you drink your vitamins  
And we try to keep you laughing  
Meditation helps  
And have you ever felt  
Two hands that practice healing?  
Ah ah...  
Then we cried ah ah ah...  
Wanna ease your pain  
But what can I say?  
Wanna play a game?

And we played Yatzy  
All night long  
And just like with your life  
We counted the odds  
And the kids where laughing  
When we let them win  
Please have mercy  
Cause they don't know a thing

And we played Yatzy  
All night long  
And I've never wished more  
Not to write a song  
But one thing is certain  
It ain't your time to go  
We just need a full house  
And five sixes in a row
