I Feel Like The Mother Of The World

Smog

Whether or not there is any type of god I'm not supposed to say And today I don't really care

God is a word And the argument ends there

Oh do I feel like the mother of the world With two children
Oh do I feel like the mother of the world With two children fighting

When I was a boy I used to get into it bad With my sister
And when the time came to face the truth
There'd only be tears and sides
Tears and sides
And my mother my poor mother
Would say it does not matter
It does not matter
Just stop fighting

Oh do I feel like the mother of the world With two children
