

I love this shit  
 Sap is on the beat  
 I love anything about it  
 The ups and downs  
 The losses make the wins so much sweeter  
 It's all apart of game  
 Uh

Four-hundred forty-eight on the clock, I watch the scale tip  
 All those out of town trips made me feel a say in this  
 For not keeping the drugs and the money in the same whip  
 Multiple vehicle just in case it get dangerous  
 Right, mask and gloves like I'm Bane  
 The virus made it easier for us to home invade  
 They think they got us figured out, but they don't know a thing  
 Put thirty on your headpiece, that's just another chain  
 Really, a nice watch  
 As soon as you put some diamonds in them, the price drop  
 As soon as I work for self, it put me it tight spot  
 Don't throw me no pity party, think that I might stop?  
 'Cause I'm not, I'm at the round table, cheffin' up hot, like it's legal  
 Top shelf, you better cop before my people  
 Drag your feet, end up paying double, see Tito  
 Disappointed like Smokey when Craig ain't shoot Deebo

I love this shit, yeah  
 I love it, I love it, love it, love it, love it  
 Love it  
 I love this shit, yeah  
 Even if you haters all love me  
 I love it, yeah

Kush god, say it bluntly, touring the country  
 Holidays, I'm like Bun B, everyday comfy  
 Flood work, make sure you see me when everything complete  
 Have your vice, but stay focused, don't turn into junkies  
 Stand clear, make sure you protect mama and auntie  
 Grandma, stay pray for me, she keep away jumbees  
 Evil spirits, that Guyanese slang, how I pronounce the unsung  
 Underground king, pimp Bun B, Harlem nigga  
 New shines, I switch up my monthly plug  
 Then I grab a couple, a couple, they front me  
 Look, plus I got a couple on the way  
 Y'all are just some suckers in the way, fucking up the play  
 Still getting money who I came up with  
 Smoker's club, shout my brothers who I flame up with  
 Marathon, I had endurance when they gave up quick  
 I got real songs with Nip, no make up shits

I love this shit, yeah  
 I love it, I love it, love it, love it, love it  
 Ha, yeah  
 I love this shit  
 I love it, I love it, love it, love it, love it
