Welcome to where the players feast
Some will pay to see, never go but pray to be
Exit row on the low, bargaining the chains they seek
Complaining to me about the needs, that they been on for weeks
Is you sucking or you fucking well, cause this ain't just a glass house
30, 000 feet in the air, I'd hate to kick yo ass out
Fly until we pass out, something you should savor
Because if we ain't the best then it's clear that we the greatest
Welcome to-
