She only know me from the penthouse sweets
What you know about that
Take a look at your life without that
I'll get your life right yea
I can make you shine like yea
Keep you in the limelight yea
You like that yea
Chilling with a nigga that can shut it down
Baby you ain't gotta worry about nothing now
Ride with me

Level 10 Jedi, Playing my post
You can never underestimate genius
My old lady asking for space
I might fuck around and give her Venus
You see the coldness in my pose
They like how he flex so seamless
Got to stoned to get to jue lan
Thank God they deliver on seamless
Got my jewelry over Coogi word to groovy
View my closet like its Nieman's
Might mix match Amie with A wang
Watch how quick my outfit gets remixed
Hey sim simma
Load up the Ps in the sprinter
Hold on the trees till we enter
It'll be a cold winter
25 keys was delivered
A nigga like me is a winner
To all my beginners
Y'all might freeze in the winter
But my g keep your chin up
Private flight fast asleep before the wing up
Two duffels on me is all I could bring up

She don't even know I'm in the streets
She only know me from the penthouse sweets
What you know about that
Take a look at your life without that
I'll get your life right yea
I can make you shine like yea
Keep you in the limelight yea
You like that yea
Chilling with a nigga that can shut it down
Baby you ain't gotta worry about nothing now

Ride with me

Baby you can do that
Ima make you rich, but you knew that
Chilling with a nigga that can shut it down
You ain't gotta worry about nothing
Ride with me
Help you get your money right
You gone have enough for a hundred nights
Chilling with a nigga that can shut it down
You ain't gotta worry about nothing
Ride with me

I promise you I lived this life way before
Everything happened just like I dreamed it
I did SOBs New York
I did amphitheaters, arenas
I went touring of my tapes
I got paid to speak like a preacher
Make this easy as Mike Jones
Everyone know the number in agreement
Old school Harlem nigga my soul
Bout time to activate in my mode
Can't no one can say I told
My whole rolodex is life goals
The underground gatekeeper
Slow down in case you can't keep up
Rolling up strong got me 8 feet up
I hold it down still safety first
I know a lot of niggas that shakey thirst
But I'm central air
It never really matter if the ac work
Life goals is to never have my baby's work
It ain't a replica Chanel that's a AG purse

Baby you can do that
Ima make you rich, but you knew that
Chilling with a nigga that can shut it down
You ain't gotta worry about nothing
Ride with me
Help you get your money right
You gon have enough for a hundred nights
Chilling with a nigga that can shut it down
You ain't gotta worry about nothing
Ride with me
