

Full Circle

Smoke DZA

Yeah
Yeah
Kush God bitch
Right

Pack is crazy
They focus on package lately
Black Mercedes
Laughing in the back with Swayze
Macking Sadie
Wonder why she acting shady
Actress lady
Trying to get some action maybe
Accolade me
They looking for traction daily
Twenty pointers
Shits dancing like Alvin Ailey
That's just crazy
You know the Kush God
The good bud
Whole world loving my style
Descendant of the Funk Doc
Meth Man B-Reals the Snoop Doggs
They all know how I get down
Harlem nigga jiggy
Sprinkle a little Biggie
Putting on for the city
Niggas know I get busy

Yeah
Mm hmm
Yeah
I said the whole world follow the leader
Mm hmm
Yeah
You looking for me just follow the reefer

I can see clearly now the type a game I'm in
They pray on your downfall when you always win
To busy looking out instead of within
Folk get close now you stabbed by your fucking friend
Man not this shit again
Lesson learned
Pocket watch
Can't discern
Never deal with bullshit in real time I defer
Roach clip protect my finger tips
Yeah that's what you earn
Ashes I'll make you dust
Punk if you fuck with us
I just lay back in something new
Whiskey 21 and over lowball
Make it two
Neat DZA from Harlem
Yeah I'm from Houston off of Fondren
Mike Mizanin Real World flow
Awesome

Plant these seeds in the streets
And in weeks watch it blossom
Dark night riding on chrome swanging through Gotham
It's me and P
Repaving these roads I feel like Cody
Shot a fiend a eighth
I heard his bitch yell Kobe
I reserve the right
You'll get what you deserve
Enjoy this full circle moment as the turntables turn
Chair umpires call ace every time we serve
Your fight or flight about to spike
Hands off still touching nerves
Y'all got the gall
I'm running this route without the ball
P called the play
Now we trending like Logan Paul
The shit we got in store can't be purchased in a mall
50 and 0 like Floyd operating in a silo
Moe told me spit sick brick until shit get viral
We be getting throwed like Pat Mahomes spirals
Those expecting handouts please don't feel entitled
I'll spit in that hand bro we better off as rivals
Come at us wrong then the next act is flagrancy
A seat opened up
Well let me fill that vacancy
I been in H Town with P waiting patiently
Dealing with my Bruce Wayne alter ego gracefully
Yeah I know what that make me
Two distinct identities still not crazy
For those asking what I've done for them lately
It's them 80's babies
Smoke DZA and Dwayne Swayze

Dwayne Swayze and MVP
Monte Cristo Music
