

# Just Another Day

Smoke DZA

Just another day  
Just another day  
Just another day  
Just another lovely hustle  
I'm on a hustle, money on my mind  
So I stay on my grind, on my grind, on my grind  
Cause it's just another day  
Just another day  
Just another day  
Just another lovely hustle

I hope you hear everythang that I say out my mouth into this mic  
And in yo ear  
Live yo life nigga, have no fear  
Cause blood, sweat, tears  
Hardwork, plus years, plus faith, plus fate equals great  
Don't wait, go so hard, have no peers  
And to the haters, have no ears  
Cause they don't know, but to you it's so clear  
While they was asleep, you was up in here  
While they was free, you was up in there  
Never scared, so prepared  
And when you called she was never there  
So when she cry, you don't ever care  
All you know, get that dough  
Take that two, make that four  
Make it more  
Take that seed, make it grow  
With the hope of one day making it something that'll finally feed your folks  
Not a four four with a hole in your head and a tag around yo toe  
Blue rag around my forehead  
With a fat stack, I got moe bread  
You fake ass niggas better go ahead  
I'm certified, you no cred  
I know that you hopeless  
Young niggas just ain't as focused  
As I am, but I am  
Enough to show you where that dope is

If you want it, then you know that I got it  
And if I ain't got it, then you know that Imma find it

I push it, I move it  
Whether trap or music, I do this  
Shit here full force  
Screw you niggas, get a full course  
?, got cake to make, get my grind on  
My mind on my money all the time  
Nigga get hungry, turn to a grind ball  
Let the kush blow, I'm a?  
All kinds of raw, no time to talk  
Unless you tryna cop, if so, 60 for a pop  
Come prolly with me  
I be on the block, hit me on the phone  
Getting lifted  
Nipsey put me on and I can't fade Patron  
Yeah, that's how it got me feelin'

Just another day, smoking pot in front my building  
I'm a boss  
Harlem nigga, break day gamblin'  
We don't do that clown shit here, no  
Charles Hamilton  
Nah, I'm talking fly shit, fresher then a newborn  
Still hustle on my block, though with some screws on  
I gotta get it by any means, I'm on it  
I hear you niggas talkin', stop listenin' for the longest
