

## Lost

Smoke DZA

Uh

I don't shed a tear

I just put one in the air

For my niggas that ain't here

For my favorite uncle Kenny we lost him last year

I swear to God life ain't fair

I be illin'

Now I get this roller coaster feelin' every time I think of Kenyetta and the way them niggas killed him

I be hurtin'... pissed

They took a little brother away from Trish

That was my little man and shit

I remember when I got that call

Only thing I kept sayin' was "Not my dawg"

Ain't a day I don't think bout you lil bro

And the fact I ain't know about your funeral

Had a nigga miserable

I don't really smoke haze that often

But I'll light this hundred up for you

'Cause where you at now you's a lucky dude

'Cause where I'm at I don't be knowin' what the fuck to do

Lost

Big dudes and Hennessy

Reminiscing in your memories

I can't understand why

I'm on so hard and don't cry no lie

Cause I don't shed a tear

I just put one in the air

I just put one in the air

I just put one in the air

I just put one in the air

Uh

What up Petey know you see a nigga shinin' now

And every time the sun shine you smilin' down

You probably talkin' smack with Miss Scott

And a bag of fish fry in the sky I'm

Lightin' this joint joint for you

Killa woo ATI what it do

What up Yosh?

A nigga gettin' spins now

Guess these douchebags know what it is now

You being gone still a wild thought

Should of kept you closer feel like it was my fault

Tried to tell you chill but chill don't pay the bills

And when a nigga starvin' he do what ever to get that meal

Can't forget my homie Lonnie

What up playboy I ain't forget about you

I know you up in heaven like a don

Make sure you tell 'em about your nigga Sean

Uh

Big dudes and Hennessy

Reminiscing in your memories

I can't understand why

I'm on so hard and don't cry no lie

Cause I don't shed a tear  
I just put one in the air  
I just put one in the air  
I just put one in the air  
I just put one in the air
