

You know I wake and bake roll all this up  
Sip peppermint tea out my polo mug  
Smell it stinkin' through the doors niggas know it's us  
Spray some Ozium 'fore this old bitch let the po po up  
Relax still, not trill  
Everyday's the best day ever word to Mac Mills  
I light a forest UPS here  
It's from Lauren  
August just got a box full of fall shit  
Right, admire the patch  
We ain't official with thirst and so it's quiet for that  
Love and loyalty I got inspired off that  
And in real life I am who I am on my raps, nigga  
Diggin' a ditch that's just everyday DZA  
Honestly you niggas need to thank him  
Like an old Langston oldheads be stankin' me  
Like thirty somethin' so we let the old boy spank him

Right, niggas hate when you established  
They don't work hard but wanna have it  
Conversation cut shorter than the grass is  
Trynna use a nigga so they ass kiss  
But it's quiet for you niggas  
Shhh  
It's quiet for you niggas  
Shhh

No more comparin' shit it's quiet for that  
There's only one Smoke DZA no lyin' in that  
I make the ground shake, I'm a tyrant in fact  
Fuck them doughboys supplying you crack  
Figuratively speaking I serve em frequent  
All seasons stay recent never make em wait  
Like a visit in the beacon  
Seeing is believing  
Dreams I'm achieving  
Knew I was that nigga when I used to rock the [?]  
With the uniform  
I was a fly little guy way before I was on  
True story got em all icy form the Jola  
Shit on your little friend Mula  
Hop in the drop take off like Ferris Bueller  
Ridin' to riches with the top down  
Wind damn near blew my bucket off my head  
It ain't bout the popularity measure me by success  
Fuck the accolades I want nothing but the bread

Right, niggas hate when you established  
They don't work hard but wanna have it  
Conversation cut shorter than the grass is  
Trynna use a nigga so they ass kiss  
But it's quiet for you niggas  
Shhh  
It's quiet for you niggas  
Shhh
