

# I Wanna Know Your Body

Smokey Robinson

I wanna know your body like it was my own  
All night, is that alright?  
I wanna know your body like it was my own  
Every part, a beautiful sight  
I wanna sing about it in a sweet love song  
Clever words I wanna write  
I wanna make the music all night long  
While I'm holdin' you tight

What would be my dream come true  
Is for me to be with you  
All the things that we could do  
Yeah, to make each other feel good

I wanna know your body like it was my own  
If it's not asking too much  
Well I wanna have your body answer like a telephone  
In response to my touch  
I wanna touch your body with passion  
Every curve, every line  
And I wanna make your body glow from head to toe  
Light it up like a neon sign

Every time you walk my way  
I know what I wanna do  
Even if I don't know what to say  
I'm thinkin', maybe one day  
Ooh, we'll make each other feel good (feel good)

Ooh

Every time you walk my way  
I know what I wanna do  
Even if I don't know what to say  
I'm thinkin' maybe one day  
Ooh, we'll make each other feel good (feel good)

I wanna know your body like it was my own  
If that's alright  
Maybe one day, I might
