

In Time

Smokie Norful

Listen my brother, my sister, don't give up
It's gonna work out, I promise in time

Though it seems like life is over
And your tragedy has no end
Don't count yourself out of the game, no not yet
Pull it back together and drive right back in
It will work out, in time

Whatever you've been going through
You're not by yourself
As crazy as it may seem
It happened to somebody else
What I found out is that if you hold on till the sun rises
It will work out in time

In time, your trouble will be over
In time, your heartache will be mended
In time oh yeah, it will work out in time

So the enemy is trying to convince you
That you habit can't be beat
There's no need to lay down and give up in defeat
Put that bad experience behind you
Hold on and know that
It will work out in time

I know you've been abused
And someone took advantage of you
But know that God will replace your scars
Like only He can do
Don't walk around in your guilt and your shame
Call on His name
It will work out in time

In time, yes my brother your trouble will be over
In time, oh no my sister your heartache is gonna be mended
In time, oh yeah It will work out in time
In time, I know your troubles are gonna disappear
God is always standing near
In time I know it's gonna work out (it will yeah)
It will work out in time

Hold on my brother, my sister hold on
It's gonna work out for the good of them that love Him
He promises in His word that
It will work out in time
Point to yourself and say it like you mean it this time
It will work out in time
