

## Coming Home Tonight

Smokie

Waiting in a lonely home  
A fire burning low  
A thousand miles between us  
god knows, I had to go  
But distance can be overcome  
In the beating of a heart  
Just put your arms around yourself  
Believe I'm not that far  
Remember that I told you  
That I'd prove my love is true  
and if you wait a little longer  
I'll be coming home to you  
Tonight, when all the lights go down  
tonight, we'll dream about the love we've found  
tonight, when all the lights are low  
We'll hide away in yesterday  
and I won't have to go  
A year can seem a lifetime  
to leave someone like you  
So many sleepless nights I've spent  
Reaching out for you  
The price of dedication is everything I own  
But there is someone that I can't give up  
without you, why go on?  
Tonight, when all the lights go down...  
Tonight, when all the lights go down...
