

## For a few dollars more

Smokie

**G** **Am**  
Rich girl, she buys her dreams  
**C** **G**  
It's a rich world, behind the scenes  
**G** **Am**  
Green eyes, they tell ist all  
**C** **D7** **G**  
The more she takes, the harder they fall

**G** **Am**  
She ain't easy, she ain't tough  
**C** **G**  
She's had it good, she's had it rough  
**G** **Am**  
And I guess it don't come too much  
**C** **D7** **G**  
But all she's got, she ain't got enough

**G** **Am**  
And she cry just a little for a few dollars more  
**C** **G**  
She'll lie just a little like she's done it before  
**G** **Am**  
She'll take it, she'll fake it, for a few dollars more  
**C** **D**  
She'll show you her heart, and then  
**C** **D** **D7**  
She'll show you the door  
**G** **Am**  
You know she'll die just a little for a few dollars more  
**C** **G**  
Even fly just a little like she's done it before  
**G** **Am**  
She'll take it, she'll fake it, for a few dollars more  
**C** **D**  
She'll show you her heart, and then  
**C** **D** **G**  
She'll show you the door

**G** **Am**  
Strange things can happen to you  
**C** **G**  
When you got so much, you got nothin' to do  
**G** **Am**  
Nooow, what do 'ya know  
**C** **G**  
How'd ya get there, and there's no where to go

**G** **Am**  
So you wonder, just what you'll do  
**C** **G**  
She's never known love, but then she's never known you  
**G** **Am**  
And it's true that those sad green eyes  
**C** **D7** **G**  
Are so full of questions, are so full of lies

**G** **Am**  
And she cry just a little for a few dollars more

**C** **G**  
She'll lie just a little like she's done it before

**G** **Am**  
She'll take it, she'll fake it, for a few dollars more

**C** **D**  
She'll show you her heart, and then

**C** **D** **D7**  
She'll show you the door

**G** **Am**  
You know she'll die just a little for a few dollars more

**C** **G**  
Even fly just a little like she's done it before

**G** **Am**  
She'll take it, she'll fake it, for a few dollars more

**C** **D**  
She'll show you her heart, and then

**C** **D** **G**  
She'll show you the door
