Midnight Train

Smokie

Get on board at the city line Head up north on the 45 Live for the weekend It's friday night

Summer nights they come and go Just kids going out to show Spending hard earned all night long

Gonna leave our worries behind

On the midnight train to paradise (No more) looking back we can say That we were right
We're on the midnight
Train to paradise
It's the place to be calling
Destiny tonight

On the trail of the neon lights
Cruisin' cars in the city night
Hit the road still running playin' cool
Jump the bars and blow a fuse
Crazy girls we can never lose
Breakin' hearts and breakin' all the rules

And we all go crazy going crazy tonight

On the midnight train gonna get away The feelings running high And adrenalin's started pumping in It's time to let it by
