

No One Could Ever Love You More

Smokie

No one could ever ever love you more
just like I loved you once before
no one could ever love you, never, never, never,
and I will always know it's true
no one will thrill me like you do
and I will be with you forver, and ever, and ever.

And I can still recall the day
and I will always hear you say
that all you really want is love, love, love,
And then I wish that I would be
no longer wantin' to be free
and so I sent to you my love, love, love.

No one could ever ever love you more
just like I loved you once before
no one could ever love you, never, never, never,
and I will always know it's true
no one could thrill me like you do
and I will be with you forver, and ever, and ever.

Solo

And our love was born
and you kept me warm
and there will be no dawn on our love
it'll always be
just you and me
oh, wait and see on our love...

No one could ever ever love you more
just like I loved you once before
no one could ever love you, never, never, never,
and I will always know it's true
no one could thrill me like you do
and I will be with you forver, and ever, and ever.
