

## No One Could Ever Love You More

Smokie

No one could ever ever love you more  
just like I loved you once before  
no one could ever love you, never, never, never,  
and I will always know it's true  
no one will thrill me like you do  
and I will be with you forver, and ever, and ever.

And I can still recall the day  
and I will always hear you say  
that all you really want is love, love, love,  
And then I wish that I would be  
no longer wantin' to be free  
and so I sent to you my love, love, love.

No one could ever ever love you more  
just like I loved you once before  
no one could ever love you, never, never, never,  
and I will always know it's true  
no one could thrill me like you do  
and I will be with you forver, and ever, and ever.

Solo

And our love was born  
and you kept me warm  
and there will be no dawn on our love  
it'll always be  
just you and me  
oh, wait and see on our love...

No one could ever ever love you more  
just like I loved you once before  
no one could ever love you, never, never, never,  
and I will always know it's true  
no one could thrill me like you do  
and I will be with you forver, and ever, and ever.
