## No One Could Ever Love You More

## **Smokie**

No one could ever ever love you more just like I loved you once before no one could ever love you, never, never, never, and I will always know it's true no one will thrill me like you do and I will be with you forver, and ever, and ever.

And I can still recall the day and I will always hear you say that all you really want is love, love, love, And then I wish that I would be no longer wantin' to be free and so I sent to you my love, love, love.

No one could ever ever love you more just like I loved you once before no one could ever love you, never, never, never, and I will always know it's true no one could thrill me like you do and I will be with you forver, and ever, and ever.

Solo

And our love was born and you kept me warm and there will be no dawn on our love it'll always be just you and me oh, wait and see on our love...

No one could ever ever love you more just like I loved you once before no one could ever love you, never, never, never, and I will always know it's true no one could thrill me like you do and I will be with you forver, and ever, and ever.
