I need you, but I know that you fool around

You're the best thing that I have and it's breaking me 'cause it's breaking down

Well I loved you before, and you can be sure, it's a hell of a place to be

And you said to me that I won't get another chance

Well you loved me once, and I loved you twice and you never lis ten to my voice

If you're strong enough, then you'll never be the second choice

It's daybreak the sun is rising across the hill

And I'm so afraid to wake just in case you might not be laying there still

Well I told you last night that I'll get it right, as a lover I 'll be on my knees

And you said to me that I won't get another chance

Well you loved me once, but I loved you twice, and you never  $\operatorname{li}$  sten to my voice

If you're strong enough, then you'll never be the second choice

He's crying, she's lying
Hearts aching, souls breaking
Will this be his lucky day
Over and over
Her head on his shoulder
Hold on, hold on, hold on

I need you and I knew that you would let me down

You're the best thing that I have and it's breaking me 'cause i t's broken down

Well I told you last night that I'll get it right, as a lover I 'll be on my knees

And you said to me that I won't get another chance

Well you loved me once, but I loved you twice, and you never li sten to my voice

If you're strong enough, then you'll never be the second choice
