

She Rides Wild Horses

Smokie

It's just her and the band and the
Clean-up man
She's countin up her tips,
She did alright, she says goodnight
She drives home to a 3 room flat
She's almost asleep before she turns
Out the light
In her dreams she rides wild horeses
And they carry her away on the wind
And they never make a sound
As they fly above the ground
Tonight she rides wild horses again
She's fallin' in love a time or two
Somehow it alleays fell through but she's strong
She carries on
Her life ain't allways gonna be this way
She knows she's gonna shne someday
But for now she'll escape until the dawn
In her dreams she rides wild horses...
