When you look my way
Hmi
girl I'd like to say
Emi **G** (G7)
that I've found somebody to love
C **Hmi** **D**
But how can I tell you that I do

you know it's true

Nearly all the time
girl, you're on my mind
And I can't stop thinking of you
I wish there was something I could do
what can I do

C **D**
You're breaking me up
G **G7**
You're bringing me down
C **Hmi** **Emi** **C** **D**
Sometimes I see no sense in hanging around

though it should be easy,
just to talk to you
and I know there's nothin' to lose
But you're somethin' special in my eyes
In my eyes

You're breaking me up...

G Hmi Emi G C Hmi D

You're breaking me up...

Like I said before,
you know I love you more
Every time I see your face
Better take my chance, before it's too late
It's too late

You're breaking me up...
