1. If I lied just another day  
**Am C**  
The strenght I needed flew away  
**F**  
You went and hurt my pride  
**Fm**  
Than walked away, I almost died  
**C G**  
That day.

2. You were always on my mind (You were always on my mind)  
The thoughts you'd tell me were so unkind  
My heart was in your hand  
You dropped it outside in the sand  
That day.

**C**  
R: Well the time that keeps on turning  
**Em**  
And the wheels go round and round  
**Am**  
But my thoughts still go on burning  
**C G**  
For you  
**C**  
And I think that I can make it  
**Em**  
Doing things out of my own  
**Am**  
If I'm wrong then I can fake it  
**C G**  
For you.

3. You were always by my side  
The river changed, another tide  
You had another guy  
I drowned then when you told a lie  
I cried.

4. I thought we'd found our promised land  
You cut the rope with just a hand  
The love you tore apart  
Could never ever touch your hearts  
command.
