1. I sit by my window  
**G Ami D**  
Strawberry wine, the night, and you  
**G**  
It turns me on  
**E Ami D**  
Makes everything seem right  
**G**  
Although it may be wrong
2. I often remember  
The many things that we longed to do  
But now they're gone  
But everything's alright  
We knew it all along
- Ami D**  
R: Yesterdays dreams will be the same  
**G**  
Although our hearts may change  
**Ami D**  
Yesterdays hopes will still remain  
**G**  
And never die  
**Ami D**  
Yesterdays dreams may not be new  
**G Ami**  
But if our love can see us through  
**C D**  
Then I will live my life with you  
**G**  
Yesterdays dreams
3. Though we may wonder,  
thinking of times foregone too soon  
We knew them well  
For many, many nights  
That I have spent with you
4. Drifting through shadows  
I saw the light that shines from you  
As it fell  
Oh I suddenly can see  
That all they said was true
