

# IntergalacWhip

Smosh

So you want to learn the intergalacwhip  
The dance craz sweeping from Mars to zerbacnic  
Your parties a black hole so flip that waxscrim  
Don't take note like your to get the knackfit

First you whip around your fists like a nasty boy  
Now orbit them hips if you a fly humanoid  
Do the worm and rewind, forward rewind  
Now put your hands on your knees as we creep up behind

So you want to learn the intergalacwhip  
Galacwhip galacwhip  
So you want to learn the intergalacwhip  
Galacwhip galacwhip

Before he went and learned the intergalacwhip  
Was a lonely little alien with no one to dance with  
But now the boys are lined up past the nebula cootz  
This bad gitzscalapapus puts 'em over the moons

But me, I met a G whose still G-ing the G's  
If you can get on my frequencies, transmission received  
Look up, you see that UFO past galaxy falcon  
I'm coming for your port in the perinien falcon

We come in peace, we're here to scour your anus so just dance  
Take us to your leader as payment so drop pants  
Get up we're made of stars, so do the red giant  
And also some butt stuff in THE NAME OF SCIENCE

So you want to learn the intergalacwhip  
Galacwhip galacwhip  
So you want to learn the intergalacwhip  
Galacwhip galacwhip

Your fists and your hips and your worm down back  
So now we gonna add a couple new moves to that  
Now let me see you one time, do the spacewalk  
Let me see you one time, do the spacewalk

Hands to the stars, now hands to the glode  
Now stay in that position while we insert the probe  
So whip those fists, fists and twist those hips, hips  
Do as commanded by your MC Jizzle pits, pits

Now watch me whip, whip now watch me intergalacwhip  
Now watch me dip, dip now watch me enter your asscrick

So you want to learn the intergalacwhip  
Galacwhip galacwhip  
So you want to learn the intergalacwhip  
Galacwhip galacwhip

Uh uh uh, oh yea  
Big bang  
Oh right, uh uh  
Nebula

That's right  
Mercury  
Hum ha  
Carl Sagan  
Oh yea  
All the planets  
Oh yes  
Dark matter  
Ah ha  
...
