

Automate

Snail Mail

One more drink 'til I can feel you
And when the party's empty, we can dance slow in my room
Never like we used to, but you in that green sweater
I could die if I had the guts, puked it up, drank too much
Feel this good forever

Automate me and I'll never find a love like this
I'm free but I'm not having any fun like this
Wash, rinse, repeat, and I'm sure I know a drug like this
Stay in my dreams, I'll never ever find a love like this

Blank lips, dark room, I pretend it's you
But she kissed like she meant it
It's like I'm living and I'm past her
It's thirteen days after but it still feels like I'm cheating
One more drink 'til I can lay beside you
I'm forgetting what you look like

Automate me and I'll never find a love like this
I'm free but I'm not having any fun like this
Wash, rinse, repeat, and I'm sure I know a drug like this
Stay in my dreams, I'll never find another love like this
