

## Deep Sea

Snail Mail

Deep sea dive  
Got down, but you stayed alive  
It's only you down there  
You and the bends

Lose your mind  
Lose track of breathing in time  
It's only you down there  
Sleep with the tides

And we can be anyone  
It took so long to know someone like you  
And age in the dying sun  
Wake only to bathe in greens and blues

Die, my love  
Breathe in twos and fours  
To know what's worth breathing for  
Some days it's easier than falling asleep

And we can be anyone  
It took so long to know someone like you  
And age in the dying sun  
Wake only to bathe in greens and blues
