

## Easy Thing

Snail Mail

Autumn was a blur to me too  
Was I just a concept of clothing to you?  
Down comes the torrential rain on the roof  
Cause I'll be your fool forever

And ain't I that same girl you loved?  
Falling in love with such losers for what?  
Was there really something or were we just drunk?  
And ain't I that same girl that loves you?

Can't you be sure  
Making out's boring  
And you don't really love her when morning light stains  
Forget about that girl  
We'll always have that easy thing

So don't you forgot all those things we were going to do  
I just wanna say I still love you  
I still love you
