

# Driftin

Snak the Ripper

[Verse]

I've been driftin' around that's something I'm excelling at  
But I've been where suckafool or this up in the hell and back  
And I got this shit locked down like I don't need to tell 'em that  
When I'm up on stage they all like "Who the fuck he yellin' at?"  
But I'm out here in the trenches trynna get my paper right  
Never get to see no sights cause all we do is stay the night  
Crash and vibing up at six  
Bitch, I gotta take the flight  
No 9 to 5 or dead end job cause I ain't trynna waste my life  
Gonna be real with you, I ain't never graduated  
I dropped out early, started rappin'  
Now or never, get the sky  
Gotta be sincere but clearly, everybody that I ever loved  
Just keep on getting faded cause I'm never satisfied  
Never lose direction, I'm just ridin' around  
Gotta be on the move like me you doin'  
I just vibe through the sound  
Keep it elevated but I got my eyes on the ground  
I'm trynna find some peace of mind  
Before I'll glide through the clouds

[Chorus]

I'm driftin' (I'm driftin')  
I'm all over the map, neva goin' back  
Look at where I'm at  
I'm driftin' (I'm driftin')  
I'm all over the beat, we ain't ever sleep  
This is how we eat  
I'm driftin' (I'm driftin')  
I'm all over the road, out here on my own  
This is all I know  
I'm driftin' (I'm driftin')  
Got another one, I ain't never done  
Always on the run

[Verse 2]

They think I've came out of nowhere, I've been here from the start  
Put them headphones on  
I block 'em out as I prepare to depart  
Better think twice as hard if you ever try to compare with my art  
To anybody else I hit cause I'ma fucking tear 'em apart  
I'm comin' out with only the real shit  
Don't rely on a gimmick  
It kinda feels like my whole life just flid by in a minute  
I gotta keep the circle tight, cause I'm trynna get it in  
I never knew my full potential, now the sky is the limit  
Never know how long the ride is  
So I stack for the fam  
Gotta go, no regret, I'm out here with a natural plan  
Just trynna get my feet back down on the tarmac when I land  
And then I roll this weed after sleeping in the back of a van  
I've been through it all, so there's no surprising me now  
When they see you on your way up  
They always trynna be down  
I keep it elevated but I got my eyes on the ground  
I'm trynna find some peace of mind

Before I'll glide through the clouds

[Chorus]

I'm driftin' (I'm driftin')

I'm all over the map, neva goin' back

Look at where I'm at

I'm driftin' (I'm driftin')

I'm all over the bethet, we ain't ever sleep

This is how we eat

I'm driftin' (I'm driftin')

I'm all over the road, out here on my own

This is all I know

I'm driftin' (I'm driftin')

Got another one, I ain't never done

Always on the run
