

Bringing Me Home

Snakehips

The sound of your voice in the dark
The way that you feel in my arms
I find it wherever you are
I'm safe wherever your heart is

Follow your steps down the road
You're the other half of my soul
All that I need you to know
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home

The sound of your voice in the dark
The way that you feel in my arms
I find it wherever you are
I'm safe wherever your heart is

Follow your steps down the road
You're the other half of my soul
All that I need you to know
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home
You're bringing me home

The sound of your voice in the dark
The way that you feel in my arms
I find it wherever you are
I'm safe wherever your heart is

Follow your steps down the road
You're the other half of my soul
All that I need you to know
You're bringing me home
You're bringing me home
