

You see, I figured that I'd get it
Make a difference pesos
Been limit we ain't finished and killing they own
A bunch of businesses that you ain't feeling
Really stay home
The streets stay cold, children getting chilly
Nilly willy niggas kicking down your door, eating dinner
Niggas bringing all the heat so they shine every winter
Same born sinner from the ends
I figured if these niggas ride out
Don't mean they all ride with you
What's been the cause
Been appalled, so ven aquí
Claiming awesomenesse is just a portion of the energy
But you ain't for the people
You ain't really all for me
There's people selling dreams
Whilst you just always grab the shorter piece

I can tell you what life's like
Shine bright
Said it's all in your head
I can tell you what life's like
Shine bright
Said it's all in your head
I can tell you what life's like
Shine bright
I said it's all in your head
I said it's all in your head
I said it's all in your head

I made my promises that I'ma get it right
Momma saying, "Get a job," I tell her it's real life
This ain't nothing for the cameras
Nothing for the cameras
Oh, you ain't giving nothing
And you're living in the hamptons, damn son
I guess I make my decisions for better reasoning
Even Steven would never get it even
Your average Joe is always blowing up, I see the sequence
But we would never sacrifice the love for the achievements

I can tell you what life's like
Shine bright
Said it's all in your head
I can tell you what life's like
Shine bright
I said it's all in your head
I can tell you what life's like
Shine bright
I said it's all in your head
I said it's all in your head
I said it's all in your head

Ah, I'ma let it ride for a minute
Come vibe with the boy
Come slide with the boy, uh

Yeah, gotta take time for a minute
I'ma ride when I'm in it
Feel alive when I'm in it, uh
My people tell me that I'm good for this, ah
The other ones just think I'm hood of for this, ah
But really I been busy with filling the gap
With the feeling of being realer than most
So tell me what is your life like?

I can tell you what life's like
Shine bright
Said it's all in your head
I can tell you what life's like
Shine bright
I said it's all in your head
I can tell you what life's like
Shine bright
Said it's all in your head
I can tell you what life's like
Shine bright
I said it's all in your head

I can tell you what life's like
Shine bright
Said it's all in your head
Shine bright
I said it's all in your head
What life's like
Shine bright
What life's like
Shine bright
What life's like
Shine bright
