

## Forever, Pt. II

Snakehips

(Forever in my life) [x4]

Past the point of disbelieving  
Way above the borderline  
You pushed me right into the deep end, girl  
Ain't got no choice but take the dive

(Forever in my life)  
Forever in my life I see you  
(Forever in my life)  
Forever you're in my life, I can't lose  
(Forever in my life)  
Forever I know where we're gonna break through  
(Forever in my life)  
Forever you got me, you got me locked down  
Locked down, you got me Locked down

Past the part of my defenses  
Way above the edge of time  
You're playing right into my weakness, girl  
Ain't got no choice but lose the fight

(Forever in my life)  
Forever in my life I see you  
(Forever in my life)  
Forever you're in my life, I can't lose  
(Forever in my life)  
Forever I know where we're gonna break through  
(Forever in my life)  
Forever you got me, you got me locked down  
Locked down, you got me Locked down

I can't deny it's early for these feelings  
Can't explain what will begin  
But I've learned some things happen for a reason  
So I walked into you knowing that...

(Forever in my life)  
Forever in my life I see you  
(Forever in my life)  
Forever you're in my life, I can't lose  
(Forever in my life)  
Forever I know where we're gonna break through  
(Forever in my life)  
Forever you got me, you got me locked down  
Locked down, you got me Locked down
