

## Shades

Snakehips

There's a shade of blue that you've been hiding from me  
But I want all the shades of you nobody else gets to see

Show me what you find on the inside  
Right now are you gonna let your guard down?  
Right now are you gonna give a little bit away?  
Right now are you gonna let your guard down?  
Show me what you hide on the inside

There's a shade of blue that you've been hiding from me  
But I want all the shades of you nobody else gets to see

All the shades of you  
Show me who you are, I want every part  
Baby, don't you keep it in the dark  
Technicolour true  
Show me who you are  
I can see your heart  
Baby, don't you keep me in the dark

Be real with me  
Be real with me  
You don't have to conceal with me  
Just feel with me  
Be free with me  
Be real with me, baby, be real with me

Right now are you gonna let your guard down?  
Right now are you gonna give a little bit away?  
Right now are you gonna let your guard down?  
Show me what you hide on the inside

There's a shade of blue that you've been hiding from me  
But I want all the shades of you nobody else gets to see
