Sumthin Crazy

Snakehips

Hold your tongue tonight
Look me in the eyes
Do me right 'cause I'm about to do something crazy
Baby be my vice
Take me through the highs
Hold me tight 'cause I'm about to do something crazy

Never been chill, always been heat
Chasing the thrill that you give to me
Running uphill, falling down deep
Feels so foolish

But I can't let go
I'm in your hands, I'm at your door
I wish you'd quit playing, just say you'd want more
Don't miss the chance to choose it

I am the type to take risks seemingly blinded
Just what you like, no fear, take my hand and dive in

Hold your tongue tonight
Look me in the eyes
Do me right 'cause I'm about to do something crazy
Baby be my vice
Take me through the highs
Hold me tight 'cause I'm about to do something crazy

Something crazy
Something crazy
Something crazy
Something crazy
Something crazy

We're speeding up, I'm in all
Here, take your chances on a feeling I just can't deny
We're standing right on top of a love I knew once
I might lose it if I take the sky

I am the type to take risks seemingly blinded
Just what you like, baby, take my hand and dive in

Gotta let you in, sugar, time to explore
Did you know my heart's really what you live for
Crazy in my mind, I'm about to jump for your love
Gotta let you in, sugar, time to explore
Did you know my heart's really what you live for
Crazy in my mind, I'm about to jump for

Hold your tongue tonight
Look me in the eyes
Do me right 'cause I'm about to do something crazy
Baby be my vice
Take me through the highs
Hold me tight 'cause I'm about to do something crazy

Something crazy
Something crazy

Something crazy
Something crazy
Something crazy
