

# Who's Gonna Love You Tonight

Snakehips

I saw someone else standing by your front door  
And I just couldn't help but wonder what they're there for  
'Cause if they knew the things that you said when we cried on the floor  
Do you think they'd be there at all 'cause I'm not sure

I got stuck deep in your feelings gave you more of me than I needed  
You gave up and I should have seen it

Who's gonna who's gonna who's gonna love you tonight?  
And who's gonna turn off the lights  
Who's gonna tell you that you ain't just high  
Show you that you love this life  
'Cause you're one of a kind  
Who's gonna love you tonight and  
Who's gonna catch your vibe  
Tell you that you'll be all right  
Show you what love looks like  
'Cause I know her type  
Who's gonna love you tonight?  
Who's gonna love you tonight?

What happened to the space  
You said that you were needing  
I guess that it just changed  
When you got a couple drinks in  
But does she know the way  
How it felt when we raced in the car  
In the dark in the parking lot  
I guess you forgot how

I got stuck deep in your feelings  
Gave you more of me than I needed  
You gave up and I should have seen it

Who's gonna who's gonna who's gonna love you tonight?  
And who's gonna turn off the lights  
Who's gonna tell you that you ain't just high  
Show you that you love this life  
'Cause you're one of a kind  
Who's gonna love you tonight?  
And who's gonna catch your vibe  
And tell you that you'll be all right  
Show you what love looks like  
'Cause I know her type  
Who's gonna love you tonight?  
Who's gonna love you tonight?

Who's gonna who's gonna who's gonna love you tonight?  
And who's gonna turn up the lights  
Who's gonna tell you that you ain't just high  
Show you that you love this life  
'Cause you're one of a kind  
Who's gonna love you tonight?  
And who's gonna catch your vibe  
And tell you that you'll be all right  
Show you what love looks like  
'Cause I know her type

Who's gonna love you tonight?  
Who's gonna love you tonight?  
Who's gonna love you tonight?  
Tonight, yeah
