Letting Go

SNBRN

I thought you didn't think you'd catch me out
Saw you staring from across the crowd
I'll hold you down, I'm here right now
Right now
I bet you didn't think that I'd find out
But all this time I knew about
Stuck letting go, losing control
To find my way back to myself
Stuck letting go, losing control
To find my way back to myself
Find my way back to myself

Don't need nobody else

Stuck letting go, losing control
To find my way back to myself

You're probably wondering how I'm doing now
Deep inside, I know you think about
Well, I'll be fine, I can do without
Right now, I
Took letting go, losing control
To find my way back to myself
Find my way back to myself

I, I
I

I'm good all by myself
