

When We're Awake

SNBRN

Pick up on the headlights
We are taking a drive
In the dead of the night

We all wanna stay alive
So we follow the signs
We believe in the signs

And I know that's it's hard when they all start fighting
But I hope that you haven't lost your heart
And it's easier said than done, my darling
To ignore the rain and dark clouds

It's better when we're awake
When we're awake

It's better when we're awake
When we're awake

Pick up on a lost cause
Like a thief in the night
We are stealing our lives

Tell me what we stopped for
When we're feeling aligned
We believe in the signs

And I know that's it's hard when they all start fighting
But I hope that you haven't lost your heart
And it's easier said than done, my darling
To ignore the rain & dark clouds

It's better when we're awake
When we're awake

It's better when we're awake
When we're awake

And awake, and awake, and awake, and awake

And awake, and awake, and awake, and awake

And awake, and awake, and awake, and awake

All the rain and dark clouds

And I know that's it's hard when they all start fighting
But I hope that you haven't lost your heart
And it's easier said than done, my darling
To ignore the rain & dark clouds

It's better when we're awake
When we're awake

It's better when we're awake
When we're awake

And awake, and awake, and awake, and awake

And awake, and awake, and awake, and awake

And awake, and awake, and awake, and awake

All the rain and dark clouds
