

## Don't Get You

### Sneaky Sound System

There's a million ways to understand it  
can you even get your head around it?  
see all the people - look in their eyes  
all their friends, they're in disguise  
you're a stranger, someone I can trust.

I just don't get you  
and I won't ever pretend to.  
I just don't get you  
but I won't ever forget you.

everybody causes, causes such a fuss  
well, it's a tricky situation - when there's no-  
one left to trust.  
everybody causes, causes such a fuss  
but the rowdy combination - ?????there's a lips still???? of di  
strust

I just don't get you  
and I won't ever pretend to.  
I just don't get you  
but I won't ever forget you.

I.. I.. I.. I.. I.. I.. I..  
I just don't get you  
I won't ever pretend to.

I just don't get you  
I won't ever pretend to.
