

Downstream

Sniff 'n' the Tears

The reality the dream and all that lies between
The memory of all that can be told
You let your life unwind
You don't pay it any mind
Then you find your children's future has been sold

Downstream we'll go downstream
Downstream from here
And I know that I
Will be there by your side
In love forever with you

I was sitting by the bar strumming my guitar
You walked in and straight away I knew
We'd build ourselves the nest, have kids and all the rest
And hope at least that love would see us through

Downstream we'll go downstream
Downstream from here
And I know that I
Will be home and dry
In love forever with you
