

I Want You

Sniff 'n' the Tears

I've been down but never like this
Something in my world must change
Something in my world must change
I want you

My crime if it can ever be judged
Would be not to declare my love
Would be not to declare my love
I want you

I want you
With a raging blinding guts unwinding lust
I want you
With a fear that I can taste
I want you
For the hours that pass for ever as they must
I want you
To share in my disgrace
I want you

You could take me up to the top of the hill
But things would never be this way again
Never look this good again
I want you

I want you
With a raging blinding guts unwinding lust
I want you
With a fear that I can taste
I want you
For the hours that pass for ever as they must
I want you
To share in my disgrace
I want you
