

## Like Zen

## Sniff 'n' the Tears

Like Zen -  
Be good to me again  
Do you remember when  
We packed our bags and then  
Like Zen -  
We watched the stars collide  
Happiness our guide  
All strategy denied

If we could be what we should be  
As we were back then  
You would see the best in me again

Like Zen -  
It seems we need to know  
The time to let it go  
And watch the river flow  
Those times -  
We skipped between the lines  
When everything just rhymes  
Let's not forget those times

As roads we travelled now recede  
Darkness will descend  
Old friends scattered out of reach  
And then

Home -  
Where all the seeds are sown  
Where everything is shown  
Where we are not alone  
We sleep -  
And wake to no surprise  
The reason's in your eyes  
There's things you can't disguise

As roads we travelled now recede  
Darkness will descend  
Old friends scattered out of reach  
And then
